

ANNUAL REPORT

ANGLESEA SURF LIFESAVING CLUB

72ND ANNUAL REPORT & FINANCIAL STATEMENTS 2022/23

ACKNOWLEDGEMENT TO COUNTRY

In the spirit of reconciliation the Anglesea Surf Lifesaving Club Inc acknowledges the Traditional Custodians of the land on which our club stands and their connections to land, sea and community. We pay our respect to their elders past and present and extend that respect to all Aboriginal and Torres Strait Islander peoples.

PRESIDENT'S REPORT

I would like to start this report by saying how proud I am of the work Anglesea Surf Life Saving Club does each and every day. We have provided over 70 years of surf lifesaving services at Anglesea and its surrounds, and our connection to the community we serve has never been this great and never have our services been more required. As a Club we are meeting our beach patrolling requirements, which included responding to a mass rescue, we are extending ourselves by providing first aid services at community events and we are even teaching the community how to use defibrillators. All these activities ensure that we are entwined in the fabric of our community, and it is you, our dedicated members, who volunteer to make this all possible. Your efforts enable our Club to deliver exceptional surf lifesaving services while protecting & strengthening our community.

My vision is that our Club's volunteering culture gets even stronger. That culture is what enables us to continue to fulfil our primary objective of meeting our patrol requirements and lifesaving responsibilities for the season. The volunteering culture also provides us the platform to deliver additional services to our members and the wider community. To do all of this we need more volunteers.

My priority is to have more of our qualified members participating in patrols. That would be a big help to our small, but dedicated, patrol teams. Anglesea SLSC is fortunate to have the most up to date lifesaving equipment, great facilities, the best behind the scenes support and the absolute best beach to patrol. So, if you are a qualified Anglesea SLSC member, I ask you- What's stopping you from patrolling?

My hope is that a clear understanding of why we exist and why we train children, and adolescents, also flows through to Nippers and their parents. We do as much as we can to educate and develop junior' surf lifesaving skills in a fun environment where they can grow, form lasting friendships, and develop an affinity with the Club. We do this in the hope that they will put up their hands one day to be future Club volunteers- patrollers, educators, competitors, and leaders of the Club.

In terms of membership, we continue to maintain strong levels across all categories. The Club's retention of its existing members is sound, and we continue to attract new members across all categories. This stability puts the Club in a good position to meet both its near and long-term lifesaving obligations.

Increased participation in surf sports continues to be an important part of our Club's culture. Apart from the thrill and enjoyment of competition, surf sport has direct links with fit and healthy life savers who patrol our beach. While I may be somewhat biased, the rebirth of our IRB team is a significant development and one that will provide an alternative pathway and opportunities for our members, as well as improving our rescue readiness.

As you'll read in reports further on, we've had fabulous success in the master's, juniors, surf boat and beach sections. We have opportunities for further development in the open and underage water sections, especially if we can retain the current youth competitors in U13, U14 and U15 age groups. Retention of junior competitors has been an issue across the State with a 40% reduction from 2020 to 2023. Pleasingly our Club's junior retention has not been impacted to this degree.

Much like last year, this season has seen some terrific results for our major fundraisers. Our Club members and the Anglesea community once again opened their hearts and wallets for the annual DoorKnock. We had a great turn out for the very well organised Rock 2 Ramp and the annual Golf Day was an outstanding success. The success of each of these initiatives was the result of hard work, good planning and preparation by each of the teams responsible. My thanks go out to the leaders of these fundraising activities and to all of you who volunteered your time.

Over the year, our Club has had terrific support from ongoing and new sponsors. We are also extremely grateful to the Club's key supporters, who continue to donate funds, goods and services to ensure that the Anglesea Surf Life Saving Club can be the best it can be. Our Club cannot exist without all your support so from the bottom of our hearts – THANKS!

During 2023 our Club was exposed to the financial challenges that all Australians experienced. Despite significant cost and interest rate increases throughout the year the Club had a positive Operating Cash Flow and was able to meet its debt repayments. Going forward the Club will focus on increased sponsorship and fundraising as part of a broader approach to mitigate further cost and interest rate increases.

A very personal thanks to the Board who have been incredible this year and have helped the Club navigate the many and varied issues we face from both internal and external sources. You give so much of your time, all without asking for anything in return! You are all amazing. To those Board members that have given so much and are stepping away from your roles, we thank you. To those joining the Board for the upcoming year we look forward to your energy and eagerness for the challenges ahead.

Finally, as noted above, volunteering is at the heart of what we do. Please put your hand up and offer help when you see someone sweeping out the IRB shed, cooking on a BBQ on a hot day, or processing Nipper applications on sign up day.

WE NEED YOUR HELP!

There is not much in life more rewarding than giving to your community.

David Marsh
President

VICE PRESIDENT - OPERATIONS REPORT

2022/23 was a season where the Anglesea Surf Life Saving Club returned to a semblance of normality. It was our first year without any lockdowns since the Covid-19 pandemic and didn't we all enjoy it. The Club was a hive of activity throughout the entire season, and it was rewarding to see our members:

- Enjoying the beach and keeping it safe for the broader community;
- Participating in training and development opportunities;
- Proudly representing our Club in junior and senior Surf Sports;
- Engaging in major Club fundraising activities, such as the Rock2Ramp, DoorKnock and the Golf Day;
- Socialising and having fun at various Club events, such as the Club's 70th Anniversary, the Ladies Lunch and the Nipper family night;
- Congregating on the deck to relax, catch up, and take in the views across our amazing beach, grab a bite at Love House or share a beverage at Jimpy's Bar; and
- Making greater use of our Club facilities.

Much of the above would not have been possible without the remarkable group of ASLSC members who volunteered their time and skills for the benefit of all our Club members, our sponsors and donors, the Club's employees, and all our service providers.

As I noted last year, volunteering is the life blood of our Surf Club and I thank all of you who were able to step up during the year.

Our Club strives to continuously improve in all areas. To do that we really need help from more of our members. Your contributions, no matter how large or small, will benefit all our current and future members. Your contributions also help you to connect with the Club, develop friendships and strengthen Anglesea's overall Club Culture.

I cannot over emphasise the importance of volunteering as part of our Club Culture. We need strength in both these areas if we truly want to underpin our Club's future. Consequently, if you are a new member or one of our existing members who was unable to assist during the past years, I implore you to come forward and help out in the years ahead.

The past season saw a successful launch of a new restaurant, Love House, which is located in the Ray Marsh Room at the Club. From its inception, the Love House menu and level of service has been a big hit with all age groups of our members and the wider community. The Club appreciates the efforts of the Love House team, particularly Tom Lapenas, Simon Paramonov, and Tom McGrath in providing us with a quality offering that differentiates the Club from other dining alternatives in Anglesea.

During the year the Club spent considerable time negotiating a renewed lease over the land that the Club currently occupies with the Great Ocean Road Coast and Parks Authority (GORCAPA). The Club is appreciative of GORCAPA's efforts during this process and was pleased that we were able to secure an acceptable outcome. The renewed lease has the same expiry date, 31 December 2034, as the Club's previous lease.

During the year the Governance Committee received feedback on the proposed amendments to the Anglesea Surf Life Saving Club Constitution from legal counsel at Life Saving Victoria. We are now working through an on-going engagement process with ASLSC members. The Governance Committee will consider the feedback that it receives from these engagements before a revised draft is taken to the Board. Ultimately, the Board will need to decide what amendments it supports being brought forward for members to vote on.

In closing this report, I would like to touch on the Club's financial position. First, I thank Richard Carr and Mark Griffin of West Carr & Harvey for their ongoing commitment to organise the Club's End of Year Financials, on an in-kind basis. Secondly, I note that the Club experienced significant cost increases during the last year. These increases included the cost of goods and services, utilities and interest rate charges and should be of no surprise to our members as it reflects what has taken place across the broader community. Given that the prevailing inflationary environment is not expected to subside in the near-term, the economic outlook for Australia is challenging. Consequently, the Board will increase its focus on new opportunities to increase Club revenue through fundraising and sponsorship, while it tightens its handle on Club expenditure.

Please be assured that our Club is committed to remain financially viable and to provide our members and the broader community with quality lifesaving services and associated amenities.

Noel Langford

Vice President- Operations

VICE PRESIDENT - LIFESAVING REPORT

Into my first season in this role, I knew that our Club was a large operation but wow, I underestimated it! There are so many facets of our Club that all come together and whilst they might not always be perfect, they are pretty close to it. This is particularly impressive when you consider that the majority of work to pull it all together is done by volunteers and backed by our paid staff. Each and every member plays a part in this, and you should all be proud to be a part of it.

Our Nipper program is something to hang our hats on. Over 500 Nippers plus 24 Starfish Nippers over a two week period runs so well, and it is so great to walk along the sand, watching the kids having a blast and the parents and water safety all working together to deliver this program. Whilst they might not all turn into future lifesavers, they are all learning essential water safety skills that they can all take into the rest of their lives. The Starfish Nippers is nothing short of incredible and continues the Clubs commitment to inclusion for all. Well done to Patrick Haseler & Matilda Cameron on leading your teams through these programs. It is not just this period of time that it takes you to deliver the program, as there is a lot of work that goes into the preparation each year.

Our Youth Development continues to grow under the leadership of Sam Hume. For the competitors who head to these carnivals, it is a great milestone in your lives, and I hope you can look back on it fondly in future years with great memories. At Warrnambool for State Titles, there was a great show of camaraderie amongst our Club. There were some standout performances with lots of kids coming away with medals but most importantly, huge smiles especially our Under 9 boys winning silver in the Board Relay. I think they are still sleeping with their medals around their necks! The highlights for me were at night, sitting around as a Club, with everyone enjoying either Simon Spink's spag bowl or Scott Tannahill's paella and hearing how all the groups did each day. I think Simon & Scott may be booked in every year now!

Senior competition is coming along and continues to rebuild. Whilst our R&R teams have taken a much earned break from dominating at the top of their sport, our Youth competitors are coming along nicely with some great results across the board. Our boat crews had some up and down results with our girls having to succumb to injury mid-season after some great results early. A keen U19 boys crew have now hit the water and will not only be great rowers but great Club members. Scott Tannahill already has them finalising their IRB crew awards and drivers are the next step. Our local men's crew managed to take gold at Masters States and make the final in Reserves the next day after 3 weeks of training, so suffice to say, they are firing for next season already!

Over at the Aussie's in Perth, our beachies dominated given their results in Victoria, they entered the pinnacle event high on confidence and didn't disappoint. They ended up with great results yet again and show what a great long term program we have under the watchful eyes of our super coaches Peter Van Miltenburg and John Baldock with Adam Martin managing the team.

Whilst this isn't about singling out anyone, I'm going to do it anyway. Naantali Marshall's results at the Aussies was simply amazing. A perfect score of 4 golds from 4 events is something for, not only Naantali, but the Club to be proud of. I'm sure it got to the point on the line where the others knew they were racing for second place, thus the dominance of Naant!

During the colder months, there is still plenty going on with our Club back into IRB racing! Well done to all involved. It has been great to see so much action continues, when our Club can often be quiet. The people involved are not just petrol heads, all of them are great contributors to the Club and I cannot wait to see this continue to grow for years to come.

Patrols are the reason we have a Club. That is the simple way to look at why we are here. Yes, there are so many areas within the Club and there are many moving parts. However, we are a Surf Lifesaving Club first and foremost and we patrol the beaches around Anglesea. As we move past the COVID era, challenges around volunteerism are many. We are working on many ideas to rebuild our patrolling numbers in the ASR areas and to get better retention through our Bronze Camps and courses. The Patrol Captains having been meeting along with some of the Board to implement some ideas for the upcoming season and we are very excited for what may come of it. Special mention to both Lachlan Sallabank and President David Marsh who both did over 100 volunteer patrol hours this season. Simply amazing guys!

Lachie Eaton and his Member Development team continue to do an amazing job putting through all the new awards, the requals and the logistical nightmare that is Bronze Camp. We put through another 53 new Bronze awards this year and as mentioned above, we are working on ways to transition more of these new Bronzies into ASR members for years to come.

As always, the work that the Supporters Group do to assist all of these areas is greatly appreciated. We all know that some of what we do can be quite costly and the Supporters Group are always there to lend a helping hand. They are always willing to help, and I know they get a kick out of seeing the Club flourishing.

To finish, I want to share something that happened this summer. If you want to have an idea on the impact of what patrols make to the beach going public, all you have to do is hear what happened on January 14 this year. It was a pretty normal summer day at Anglesea, small swell, packed beach and families enjoying a great beach day. All of a sudden there was a commotion in front of the boat ramp and before we knew it, we had a serious rescue on our hands. The work done by Patrol Captain Donald Bryce and his team was amazing to witness. There were a few other Club families down on the beach this day and everyone sprung into action, without hesitation. Special mention to Jan Marsh for looking after all of our kids! The way everyone worked together reminded me why we do this. Not only were there a few experienced patrol members, who were helping with the patients, there were a number of younger SRC members on their first patrol and they simply nailed it. It can be a very confronting scene whether it be your first or fifteenth rescue and the members did an amazing job. I hope that it inspires these younger members to continue patrolling and are around for a long time. Remember, because of the work you all did that day, these people got to go home to their families. You should all be very proud of this. If you weren't there it may have ended very differently.

Here's to a great season by all, like I said at the start, we know we have areas of improvement, but work has already started on making next season even better. We have a great Club that has a very storied history and I look forward to us all building on it, well into the future.

Rob Tennant, Vice President- Lifesaving

ADMINISTRATION

REPORT

We had another busy season in the admin team with the return to some sort of normality. I am very proud of how our team has come together after what was a tough couple of years. We had a number of changes in the team and realignment of roles so we can best service our members.

After 6+ years of service to the club Jaci Chin-Hewson decided to take up a new opportunity as the LSV Volunteer Support Officer for Western Region, we want to thank Jaci for her service and dedication to the administration role and the club.. , We look forward to continuing to work with Jaci in the future.

Jennie Mauderer has stepped into the new role of Membership Officer with a dedicated focus on membership administration, nipper registrations, and member development. This is an instrumental role to our Club, ensuring all our membership data is accurate and we fulfill all our requirements to LSV. I want to thank Jennie for all her hard work all throughout the year.

We had two new faces join the team, Rachael Marano has joined the team in the Business Officer position, this role ensures the Clubs bookkeeping and financial administrative is accurate and up to date as well as support to the Membership Officer and the broader membership. Rachael has hit the ground running and is fitting in really well with the team. We look forward to continuing to evolve this role to provide the outcomes for the Club and members.

I also want to thank Lyn Gray for all her hard work in the Administration Assistant role, Lyn has also played an important role keeping the financial administration of the Club up to date and accurate while we went through the recruitment process for the Business Officer. Lyn will continue to support the Club on a casual basis supporting Rachel and the broader team.

Raylene continues to lead our team as Club Manager. Raylene's dedication to the team and the Club does not go unnoticed, working tirelessly to keep this Club running. From managing functions to coordinating with the restaurant, to managing our team, and everything in between, she is never far away lending a hand. We are lucky to have Raylene as our Club Manager and want to thank her again for all her hard work.

The clear aim for the administration team is to ensure that the experience of our members and all stakeholders of our Club is a positive one, that we fulfill all our obligations to the lifesaving movement, and our members can keep the public safe on our great beach. We are always open to feedback or new ideas, please don't hesitate to pop in and say hi.

With the team now settled into the realigned roles and working together we are looking forward to the upcoming season, there will be plenty of challenges but also some great opportunities.

We look forward to continuing to work hard to create a supportive and positive environment for our members and the Anglesea Surf Life Saving Club.

Robert Murray
Director of Administration

Sometimes the office is not quite where you expect!

CLUB MANAGER

REPORT

TO OUR MEMBERS

First, I would like to acknowledge the support of the Club's Board of Directors, our Club Leaders, our Members & their families as well as the Anglesea community over this past year. It was a year without any COVID shutdowns, which afforded us the opportunity to delve back into fundraising initiatives, Club programs & gatherings and several carnivals, to say the least.

TO THE OFFICE TEAM

To the entire staff team, Jennie Mauderer, Lyn Gray and our new appointee, Rachael Marano, thank you for your commitment to the Club and embracing the transition of roles amongst the team. With Jaci Chin-Jewson leaving the Club to take up a position with Life Saving Victoria, this has afforded the Club an opportunity to think more broadly in terms of what is the need of the Club now and into the future. Especially as we need to adjust and pivot to the diverse uses of the new Club building.

So, to introduce the new roles; we have Jennie Mauderer promoted to Membership Officer, which means anything membership related, from renewals, new members, nippers, carnivals etc, Jennie will be able to assist with any and all queries. Rachael takes on the role of Business Officer, which handles the tasks of basic accounts receivable/payable, managing the Club merchandise levels & shop etc, as well as supporting private hire events as needed. Lyn Gray has kindly agreed to stay on, post her kind commitment to support Jennie and I through summer 2022-23, to take on the high-end booking tasks & payroll. It has been very heart-warming to witness all of the team embrace a flexible and can-do attitude towards any task, as we challenged ourselves to think outside the box, thus implementing a business continuity plan, that sees all 4 paid roles, share all of the tasks required to keep the Club functioning at its best 365 days of the year.

EVENTS

With a kind nudge by a few members at last year's AGM, we have been challenging ourselves to find ways and places throughout the Club, that foster a "we are open for you" culture, whilst also trying to deliver the Club's strategy of "Increased and Diverse" private hire uses of the John Worrell and training rooms. We know we still have a way to go, which again asks us all to embrace a flexible attitude while we find that sweet spot.

HOSPITALITY

The Club is very lucky to have such a wonderful restaurant offering, in my opinion. I enjoy eating in Love House regularly and even more, hearing the terrific feedback from patrons and locals. The partnership of Tom Lapenas, Simon Paramonov and Tom McGrath has certainly delivered a stronger and more stable hospitality offering than the previous year. Tom Lapenas leads a terrific team of staff, who are engaging, kind, polite and helpful. I appreciate that all of us can speak candidly and reflect on continual ways for improvement. The working relationship with Love House and Co, is one of mutual benefit and we look forward to continuing this.

On reflection, I believe there is a theme starting to shine through. We are being asked, the Office & Hospitality Team, as well as our entire Membership, to adopt a can-do attitude that is flexible and adaptive, in the year to come and beyond. I look forward to walking this journey with all of you.

And lastly, thank you everyone, for allowing me to part of this great Club. I truly love it and take huge pride in being able to contribute in my small way.

Raylene Fordham
Club Manager

CLUB CAPTAIN

REPORT

With another brilliant season coming to a close, I have reflected on what has made our Club such a wonderful place to be. I'm particularly proud of a few key moments including the relaunch of a number of old traditions, the ongoing development of our youth members and the rollout of a number of training programs, have all made ASLSC a fantastic place to be a part of.

Coming into our third season in our new clubhouse, the energy and excitement across all facets of the Club has become increasingly evident. We recognise the incredible effort put into all areas of our Club, including but in no way limited to, our Nippers and Starfish program, Bronze and SRC programs, competition teams and supporters' groups. I would also like to officially thank and welcome the contribution from any new members this season, as well as all staff, volunteers and other members of our Club who all come together in such a tight knit community to boost the Club culture. It is not without the tireless efforts from all, that our Club functions so smoothly, and gives us the opportunity to grow and develop.

Coming out of the pandemic in early 2022, our 22/23 season kicked off with a bang. It was incredible to see just how quickly we were able to rebuild Club life again, by coming together as a community. We kicked off with another successful Bronze Camp, welcoming almost 53 new Bronze Medallion recipients into our patrol roster. This was the launching pad for the rest of the season's training and development.

This season also saw a huge focus on inclusion and recognition of women across the Club. With the return of the Ladies Luncheon, we heard from some wonderful speakers, inspiring women in our Club to smash their goals in work, life, our Club or lifesaving in general. This was shortly followed by our Pink Patrol which coincided with Anglesea Carnival, and it was fantastic to see both the patrol team and carnival volunteers decked out in pink, supporting our women in lifesaving and leadership.

The End of Season Awards night was once again a huge success, with a casual BBQ style format similar to last year. The night

acknowledged the exceptional performances of many of our key team members across the season and allowed us to reflect on some of the fun times we shared over summer. I would like to personally recognise Will Pereira who received the Margaret Marsh Award, for Most Outstanding Club Member. His constant and continued dedication to our volunteer lifesaving service and Club culture is truly remarkable. Thank you to everyone who helped get this night off the ground, and to everyone who received an award.

Easter saw the re-launch of the Ding Alley Pro, an event, that despite some sub optimal swell (as described by our G-Board pro riders), brought together members from all areas of our Club and the broader Surf Coast community. We are already so excited to bring this event back next season as a fun way to engage our members and build Club culture. A special thank you to both Bailey Wraith and Will Pereira for all the work that went into this event and the support from Go Ride A Wave.

The off season also saw the return of our IRB racing team under the support and guidance of Kristin Reither. The team have had a very successful season and it is this spirit and attitude, towards bringing back areas of our Club, that will set us up for success going into next year.

This season has been an eye-opening, rewarding and exciting one in my first year as Club Captain. Following in the incredible footsteps of Marli Wilkinson, my biggest area of interest is to rebuild and strengthen our Club culture. I want to encourage our young members not to be held back and to create new traditions for our members coming through, from early teens to young adults. Our Club is what it is today because of the community we've built for over the last 70 years and the dedication of every club member to make this Club the best it can be. I very much look forward to what we have in store for next season, and the even bigger mark we can leave for future generations.

Tilly Campbell
Club Captain

FACILITIES

REPORT

Our biggest project this past year was the refurbishment of the Ray Marsh Room. This involved replacing all of the windows with windows equivalent to those in the new building and fire rating the steel columns in the external walls. The latter was somewhat fortuitous, as most of the existing columns were missing a few centimetres, at their base, thanks to rust and required significant refurbishment. The cost of around \$235,000 was fully covered via a State Government grant.

We again entertained the Anglesea CFA with several False Alarms thanks to Mike Martin's excessive sweeping, the guys in the restaurant getting a bit carried away and finally, a bunch of bugs getting into one of the sensors. Club Manager Raylene and myself really enjoy these "anytime of the day/night" callouts!!

Many thanks to Matt Taylor, Graeme Weber, Mike Martin, Geoff Elliot and Mick McConnell who all give freely of their time and

expertise to keep both the building and the grounds in great shape. However, the tidiness of the club should not be left to a select few people. I urge all of you to lend a hand, particularly over Summer, wherever possible, to help maintain our facilities and share the workload amongst many. My role in overseeing our facility is made that much easier by the wonderful support I get from Raylene, Jennie, Lyn and Rachael in the office.

I would also like to thank Tom Lapenas and his team at Love House as they continue to work closely with us to ensure the facility is maintained and available, as required to service both members and the wider community.

Peter Williams

Director of Facilities

RESCUE SERVICES

REPORT

As another successful season comes to a close for our Club, I'd like to take some time to reflect on some of the highlights and give recognition to many of those who played a big part for the 22/23 season.

I would like to give a special mention to outgoing Rescue Services Director, David Simpson, for the massive contribution he's made to the Club over the years. Moreover, I'd like to thank Freddie Graham for all the work she's done as patrol coordinator in previous seasons as well as the first half of this one.

THE SEASON IN NUMBERS

Preventative Actions	4,253
Minor First Aids	41*
Major First Aids	4
Rescues	14
Beach Attendance	57,319

Our relatively low number of first aids and rescues is a great metric for the success of the patrol team's ability to remain vigilant and proactive in our management of the beach we all cherish. Despite this, an inevitability of having such a busy beach is that accidents will occur. 10 of our 14 rescues occurred on January 14th in a mass rescue. A number of our club members, both on and off duty, sprang into action to decisively come to the aid of those in distress, ensuring a good outcome for all.

Appreciation should also be shown to the Polar Bears and the Supporters Group for their continual support to the Club and to patrols. This season, they have very generously assisted with funding to ensure patrol members are well fed and looked after when they're on the beach. On behalf of the patrol team, thank you for your continued assistance to our Club.

I'm also extremely grateful to the Captain's and Vice-Captains of our ASR's this season. They're the ones, who each week, ensure that they have sufficient numbers to keep our beaches safe, as well as providing invaluable knowledge, skills, and leadership to all patrolling members. Further, our limited number of ASR's this season meant that (somewhat unfairly) the remaining 5 were picking up quite a bit of slack and doing extra hours. Well done to the Captain's and Vice's of each ASR for handling this so well.

ASR 1 – Lachlan Sallabank (C), Connor Huysing (VC)

ASR 3 – Hannah Shaw (C), Matt Anghie (VC)

ASR 5 – Donald Bryce (C), Marli Wilkinson (VC)

ASR 6 – Tilly Campbell, Lucy Wallace (Co-Captains)

ASR 7 – Edward Mackay (C), Will Ussher (VC)

A shout out to some exceptional individual efforts this season from Kristin Reither (80 hours), Connor Huysing (80), James Betson (91), David Marsh (106) and Lachy Sallabank (128.5). In saying this, every single person who contributed by simply showing up and taking part this season has unquestionably made a difference.

THE RESCUE SERVICES TEAM

James Betson has been our tireless IRB Captain for more years than I can count. It seems like every hour that he doesn't spend working is either fixing boats, racing boats, patrolling on the beach, or doing all 3 at the same time.

Will Pereira flawlessly stepped into the difficult role of Patrol Coordinator this season. Picking up from Freddie Graham, Will was responsible for ensuring patrols were rostered, uniforms were dispersed, and every other odd job you could imagine.

Matt Anghie is the First Aid Officer. This is a role Matt has held for a number of years and has never failed to impress with his knowledge and ability in the management of our first aid equipment.

All these people put in countless hours, almost always behind the scenes, to ensure that our ability to supervise, and respond on the beach, is as seamless as possible. They do this all on top of already incredibly busy schedules. I'm so incredibly appreciative of the dedication they demonstrate to this Club.

I'd like to close this report by extending my thanks to each and every one of you reading this. I understand that at times patrolling can feel like a bit of a thankless job. I also appreciate that on a cold rainy day in late April, you may not feel like you're making a significant difference. But even if you may have just felt like you were sitting around not doing much, I can assure you this is far from the case.

Whether you did 1 hour or 128.5 hours, you made a meaningful contribution to the culture of our Club and to the safety of our great beach. Furthermore, you did it out of your own time, and for that you should be commended. So, thank you to everyone who played a part in bolstering our patrols this season.

I'm incredibly proud of the collective efforts of all our members, and your commitment to bettering both, our beach and our Surf Lifesaving Club. I am looking forward to the season to come.

Edward Mackay

Director of Rescue Services

PATROL HOURS

REPORT

30+ PATROL HOURS SEASON 2022/23 INCLUDING WATER SAFETY

Lachlan Sallabank	128.25 hrs	Oliver Jurcevic	44.97 hrs

Jasmine Fry	46.4 hrs	Rob Tennant	30.12 hrs
Lughan Mullen	45.5 hrs		

YOUTH DEVELOPMENT

REPORT

Starfish Coordinator Matilda Cameron along with all the trainers and families, again ran a highly successful Starfish program for 24 Starfish this season, with fantastic engagement of the Starfish on the beach and in the water. Our Starfish Trainer of the Year was Jack Livingston who worked with Jeremy. Together they exemplify the great relationships that can form and are an absolute highlight of the program.

The Summer Program was led by Big Nipper Patrick Haseler who, in his first year, did a great job stepping up to this role. Patrick's relationships with the parents and kids, his enthusiasm, and his "can do" attitude are all central to his ability to bring everyone together to produce a fantastic program. Ably assisting Patrick this year was James Pollard who oversaw a team of workers responsible for the set up and pack down of each session, as well as the post session BBQs.

A huge thank you also to Ben Gilbert who again coordinated the water safety for the Summer Program and to the many IRB drivers, crew, and water safety personnel that assisted with keeping our nippers safe in the water. A real highlight for the program was a visit from the Life Saving Victoria rescue helicopter who enthralled our nippers at one of our sessions this year thanks to the coordination of pilot and club member Wayne Cartwright. Club championships were held in tricky conditions again this year and we are really due for some light conditions next year! Our Family Night saw a large number of members attend at the football club for some food, company and presentations.

Matt Montemurro from the Marine Mammal Foundation attended one of our sessions again this year and engaged with several age groups on the diverse mammals that inhabit the oceans in and around Anglesea, and the impact of human litter entering our aquatic environments. Matt is an engaging speaker and brings great enthusiasm and knowledge to his presentations and we look forward to working with him in future years.

Now into its third year, our local Nipper program ran through November-December, February-March. Attended by up to 30 local Nippers, the program provides additional ways for local children and their parents to engage with the Club, improve their confidence and skills in the water, and strengthen the Club

community. A huge thank you to Matt Taylor who coordinated and ran the program this year with help from Trina Porter, Peter Williams and a host of parents including Andrew Gooday and Mim Martin, who assisted with water safety, first aid and set up. Matt Taylor's huge contribution to the Club over many years in his roles as Club Secretary, Coach, Official, Assessor and as a lead in both the local and summer Nipper Program were suitably recognised when he was awarded the Graeme Long Memorial Medal for Life Saving Victoria's Volunteer of the Year in 2022. This award is an absolute highlight for Matt, and the Club, and incredibly well deserved. We are so grateful for your help and proud of your achievements, Matt.

The Club's Youth activities were supported by a number of great sponsors including SG Hiscock, Great Ocean Properties, Ocean Road Landscaping, A-Z Plumbing, Big4 Anglesea Holiday Park, the Great Ocean Road Chocolaterie, Anglesea Fruitz, and New Balance. These sponsors help with providing the nippers, age managers and water safety with essential equipment such as rash shirts, hats and t-shirts. A huge thank you to each of them from myself and the Club for their contribution, which keeps our members seen, safe and shaded. I would specifically like to thank SG Hiscock who have been a major supporter of the Club Nipper program for the past 3 years and are concluding their sponsorship this season. Please support the sponsors of your Club if you are in need of fund management, property sales and purchases, holiday accommodation, local tradespersons, local food or activewear.

Many of the nippers who competed successfully across the season have regularly attended our Club Training Days (CTDs) throughout the year and over summer. In these sessions the focus is on having fun, learning foundational surf and beach skills, developing fitness and strengthening friendships. The Anglesea nipper competition team finished 6th overall at the Victorian Nipper Titles at Warrnambool on 10-12 March, which was a fantastic effort. Coaches Ivor Morgan, Naantali Marshall, Matt Taylor and I were exceptionally proud of the team comradery and effort we saw over three long competition days. With a team of fewer than 40 competitors, Anglesea had some fantastic team and individual results. With enough members to make up two teams, our U10 girls won medals in Aqua Cam, beach relay, flags, long run, sprint, board relay, surf teams, wade, wade relay and surf race. Congratulations to Ella Robertson, Ava Macgowan, Charlotte Marsh, Tessa Parr, Mia Barbirotto, Maya Mcconnell, Amelia Charles and Edith Paterson. Our U11 girls were spearheaded by Kate Taylor who took home two gold and one bronze individual medals, and combined with her teammates Zoe Hume, Maddie Crozier and Gemma Jurcevic to come second in the Aqua Cam. Our U12 girls won gold in the beach relay (Eliza Parr, Eloise Spinks, Ruby Macgowan, Mary-Jane Gilbert) and bronze in the board rescue (Eloise Spinks and Mary-Jane Gilbert). Eliza Parr won gold in the beach sprint and flags, and bronze in the long run, while Eloise Spinks won bronze in the flags. In the U13s, Summer Morgan won gold in the board, surf race, and iron, and combined with Ruby Macgowan to come second in the board rescue. In the U13 boys, Morgan Taylor had a fantastic finish to come second in the iron, which was a fitting end to his time as a nipper, and to all the effort that he has put into his training and racing over many years.

At the Youth/Senior Victorian championships held at Ocean Grove on 24-26 February, Anglesea youth had some fantastic results over three long and trying days. In the U14s, Jas Hume won gold in the long run, silver in the iron and tube race, and bronze in the board and swim. Emily Thomas, Evie Theodore and Amelia Parr made various finals in the swim, board, iron and tube, while on the beach Evie and Amelia made the sprint final and Evie the flags final. In the U15s, Ellie Morgan won bronze in the tube and made finals in the surf race, board and iron. Jas and Ellie combined for gold in the board rescue and silver in the 2x1km run, and all the girls were just out of the medals in the other team races.

At the Australian Championships in Scarborough, Perth, in the U13s, Summer Morgan came 15th in the surf race and 19th in the iron, while in the U14s, Jas Hume came 5th in the long run, 16th in the surf race and 17th in the iron. In the U15s, Ellie Morgan made the U15 board and iron semi-finals, and Charlotte Mead made the semi-final of the surf race. Ellie and Jas came 5th in the 2x1km run. Jas, Summer and Emily Thomas came 12th in the board relay final, and Charlotte, Ellie, Emily and Jas came 9th in the surf teams final. The Aussies was a great experience for our youth girls who represented the Club with immense effort and club pride.

Jas Hume and Fergus Spinks attended the Champion Lifesaver Day at Life Saving Victoria where members from different clubs came together to learn about different areas of surf lifesaving. The day included a competition named after former Anglesea and past LSV President, Mike Martin, testing each participants lifesaving skills, knowledge and fitness.

Summer Morgan and Morgan Taylor attended the Life Saving Victoria U13 Development Camp, and Sophia Mazzotta attended the U15 Camp. Very positive feedback was received from each of them. These camps are a great opportunity to develop leadership, interpersonal and teamwork skills while also broadening their understanding of lifesaving.

In 2023, 13 members between their SRC and Bronze years attended a 4-day Gap Year program in mid-January. This program provided the opportunity to refresh first aid, resuscitation and surf skills through fun and immersive experiences and social events. Club member, Rowena Webster, who is a three time Olympian and Olympic bronze medallist, and former Australian water polo team captain, spoke to the group on the opening morning, offering inspiring stories and lessons from her journey through surf lifesaving and elite sport. Paramedic Jacqui Cook and Club Captain Tilly Campbell assisted with some of the training sessions, and I would like to thank Rowena, Jacqui and Tilly for their assistance in this year's program.

A huge thank you to the Supporters Group who once again provided funding for the Youth area of the Club in supporting the Starfish Nipper Program through the Hilton White Estate, the competition team and Summer Program through the Gladys Stott Estate, and the local Nipper program with training and operational expenses. In 2022-23, we were able to purchase a new ski, fibreglass nipper boards including two board rescue boards, full size board rescue malibu's and 2 paddles. The Supporters Group also assisted at the Family Night, setting up/packing up at events and running some much-loved BBQs. I would also like to thank Yvette Morgan who has worked tirelessly in her role as Nipper Team Manager in coordinating entries, water safety, officials and carnival set up and pack up workers. She has done a magnificent job over the past 3 years and will be stepping down from this position for 2023-24.

The 2023-24 season is already approaching, and I would like to encourage each parent to consider how they can contribute to the youth area of the Club, to continue to support our children in their development and growth into future lifesavers. Please contact me if you have any questions or want to discuss ways in which you can assist.

Sam Hume

Director of Youth Development

NIPPER

REPORT

Season 2022/ 2023 was a brilliant season for the Anglesea Surf Lifesaving Club Nippers program. Taking over from Matt Keenan at the helm, initially I was quite apprehensive with the task of being asked to be the Big Nipper, however I was incredibly proud that the Club entrusted me to do the role well. Had it not been for members such as Matt, Naant, Sam, Ivor, Matt T etc, I would not have accepted the role. The Club should be proud and acknowledge the wealth of knowledge, talent, and positive attitude, these core members show. The hours allocated to the club during their holiday's is extraordinary.

We had 402 Nipper registrations, 22 Starfish Nippers and 40 SRC registrations for the 2022/2023 season. There were new LSV registrations criteria for Age Group managers which essentially meant a stricter credentialing process for members to be AGM/AGL. Having started the process of allocating AGM/AGL back in February 2022, I was very comfortable with the calibre and number of members offering up their leadership.

As a per capita club, our results in the competitive sense are remarkable. At the competitions, we had excellent results which the Club needs to continue to recognise. This was largely driven by the coaches, whom Ivor and Yvette Morgan are integral to leading.

The participant survey results are very pleasing. Three points to highlight are:

1. 75% of participants ranked the program 'most favourable'.
2. 85% of participants ranked their growth in confidence as 'most favourable'.
3. 90% of participants would recommend the program as 'most favourable'.

Overall, the results are brilliant, and I am happy with the results. There are perhaps two points I took from the results:

1. Potentially a need for more surf education, (how to read a rip etc).
 - Surf Education. Many of the Age Group Managers and Leaders are parents with limited surf experience and whilst they are very willing and able to help, they may not have experience on rip recognition etc. I would welcome a voluntary session(s) outside of nippers where an experienced leader could pass on some education.
2. More use of the Club rooms socially.
 - Looking forward, we will continue to create and deliver social opportunities, both at the Club and the broader community.

To my knowledge, we had one injury, with a board to the face. The child was fine, although did see a medical practitioner.

This year we reintroduced the BBQs which were very popular. My goal was to increase the community feel which, over COVID understandably, took a hit. The snags were all sold out every session, and this was with an increasing supply, hence the demand was there. Not only did this add value to the community but this also added approximately \$6K net profit for the Nippers.

The new boards were well received and respected however we can do with more boards. Some of the older boards are waterlogged and there is a significant difference between the old and the new boards. We alternate between age groups and board access. This is largely due to board availability and the number of boards in the water. It would be great if there is a budget for more boards.

There is an amazing spirit within the greater group of parents. Everyone, if asked, is willing to help. Many don't know where or what they can do to help, hence unless specifically asked, will not put up their hands. However, I have found that simple direction and requests yields favourable responses. There is a great feeling amongst the Nipper group.

A long-lasting question remains. How to keep the kids in the sport once they complete the Nippers program, with competing sports etc. as they get older. I don't have this answer. Having 40 do SRC is a great result and hope to see this continue into next season.

I will put up my hand to run Nippers again this year. The program ran very well with lots of helpers and we are keen to continue to help and support the ASLSC.

I would like to thank Peter Williams, Jennie Mauderer and Raylene Fordham for their help and support, simply superb and always willing.

Patrick Haseler

Big Nipper

CLUB CHAMPION

RESULTS 2022/23

	1st	2nd	3rd	Age Group Managers Award
U7 Female	Jade Orchard	Vivian Ryan	Sylvie Fenton	Matilda Reed

U14 Male	Fitzy Gilbert	James Keenan		

STARFISH NIPPERS

REPORT

This season we were lucky enough to welcome 5 new Starfish and their families to the Starfish Nippers and Anglesea community. This gave us a total of 24 Starfish who excelled throughout another season of Nippers. Each Nipper strived to reach their personal best. With the support of their trainers, it was possible for each and every one of them to thrive in our inclusive, supportive, encouraging, safe and fun environment. This environment is made possible because of many different people and their involvement and impact on our program.

Our Starfish Nippers continue to shine bright as they run, flag, wade and board their way through our 8 sessions. Their confidence and knowledge continue to grow as they develop their beach and water safety skills. Their communication and relationship skills also grow and develop as they forge strong, trusting partnerships with their trainers and friendships with other Nippers and their families.

These partnerships are made possible by the incredible group of trainers who support the Nippers. Their dedication, commitment, enthusiasm and love for the program does not go unnoticed and is instrumental in the running of the program. Not only are the trainers dedicated but they are all kind, generous and supportive people, who volunteer their time to make this program possible.

Henrietta Graham, Alice Johnston, Ezra Polykandrites, Jared Huysing, Will Garon and Dylan Schembri all completed their Radio Operations Requalification this season. Thanks to Mike Martin and his interactive and engaging techniques, all Nippers successfully requalified. It is a joy to see the sense of accomplishment they all exude after their efforts.

A fun and unexpected highlight for many was the landing of the Westpac rescue helicopter on the Anglesea Main beach. It's not a helicopter landing you usually want to have on your beach, but this was an exception. The pilot and his crew kindly took the time to talk to everyone about the incredible work they do, in their rescue helicopter. It is with thanks to them and Westpac that we know we are safe in the water.

Members of our group, along with their friends and family, enjoyed connecting with each other and the Anglesea community by participating in the Anglesea Motor Yacht Club Roo Run's Janet Jones Classic event. With thanks to the Anglesea Golf Club, we also enjoyed a day out in the community, as a group, in their picturesque and kangaroo filled grounds. The Lighthouse Classic walk was another chance for us to connect as a group, off the beach, and take part in a meaningful event. We walked and talked our way to the Aireys Lighthouse which we touched in honour of Janet Jones. These events give our Starfish the opportunity to engage with and explore the wider Anglesea community and connect with one another off the beach.

This year Patrick Haseler took on the Big Nipper role. A huge role to undertake and I thank him for doing so. I am grateful for his support and interest in the Starfish program and for always checking in to see how we are travelling. His effervescent and encouraging leadership was greatly valued and appreciated.

There is such a strong team of support within the club and this support always extends to the Starfish program. Thank you to Sam Hume, David Marsh, Matt Taylor, Peter Williams, Jennie Mauderer and Raylene Fordham, who all work tirelessly to ensure the smooth and successful running of our Club and the summer Nipper program. A big thank you also to James Pollard and his equipment team for playing Tetris every morning to fit all our boards on to the ute and delivering them to the beach.

The team spirit and inclusion in our Club does not go unnoticed and is hugely appreciated.

John Russell and the Anglesea Uniting Church have been proudly supporting Starfish Nippers for many years and we thank them for their continued support, interest and generosity in our program and all that it stands for.

This year the Anglesea Supporters group very generously reached out to us, to express their interest in supporting our program. We thank Geoff Elliott, Chair, and the Supporters Group members for their interest in, and willingness to support the Starfish Nippers program. Working with them has been exciting and with their approval of our proposal, the impact on the program will be invaluable and we thank them for their generosity and support.

We thank Hilton White Estate for their continuing financial support of Starfish Nippers at Anglesea. It is because of these contributions that our program can continue to grow and develop.

Janet Jones is a name that will always be remembered, and her presence is felt with us on the beach. We will never have enough thanks for Janet and everything she gave to the program to make it what it is today. We are all on the beach because of her and we strive to make her proud and honour her with all that we do.

There are now 50 Starfish programs being run across the world, from Victoria to France and everywhere in between. It is incredibly encouraging and uplifting to see this number climb each and every year.

Matilda Cameron

Anglesea SLSC Starfish Nippers Coordinator

COMPETITION

REPORT

The 2022/2023 season has been a great success for competition. A new wave of up and coming juniors, an IRB racing team, continued success in the boats and beachies, Anglesea is most certainly on the rise.

It's always been an exciting prospect for Anglesea to return to the competition powerhouse we once were and this season more than ever we have pushed one step closer to that. This season saw a great increase in participation from the Club, especially at the Anglesea Carnival. I speak on behalf of all the competitors there on that day. The excitement, pride, courage and determination displayed was astounding. Everyone showed up, towed the line and that's what it's all about.

We thank the countless time and effort of all involved, who provided the support for our athletes to race. With next year's season on the horizon there is no better time to get involved. All ages and abilities are welcome, and we would love to see you in the mighty green and white next year. Go Anglesea!!

Max Mauderer

Director of Surf Sports

BEACH TEAM

REPORT

The 2022/23 season was very successful for the Anglesea Beach team showing improvement after a strong foundational season last year and with many new competitors donning the green and white cap. It was fantastic to have a full calendar of racing with athletes competing in 6 local carnivals as well as State and National championships.

Throughout the year we added several new talented beachies. Julia Phillips and Bella Robinson strengthening our female teams' and contributing to the team's success at Vic's and Aussies. We also had local appearances throughout the season from Max Zicman, Kane Emery, Will Gossan and Alex Shears-Jones. Unfortunately, our Team Captain, Saxon Beale, was ruled out for the entire season by the most innocuous foot injury at the very first carnival.

In early January, Sam Johnson and Cooper Stanley saw their impressive performances in the early rounds of competition pay off and secured themselves a trip to NSW representing Victoria at the Interstate and Summer Surf Series competitions. This saw them pitted up against the top athletes from across Australia in four back-to-back days of full and intense competition. We congratulate these two on their amazing achievements during this time, proving that Anglesea Beachies can take it to the other states.

The Anglesea beach team had a sensational State Championships with every member of the beach team heading home with a medal, this helped push Anglesea into 6th place in the overall club points score. By the end of the weekend the team had won an impressive 12 Gold, 7 Silver & 2 Bronze medals along with many other finalists and placegetters.

Some of the notable performances were:

- the two Open Mixed Beach Relay teams finishing 1st (Kate Walker, Julia Phillips, Sam Johnson, Patrick Kenny) and a very close 4th (Connor Huysing, Cooper Stanley, Bella Robinson, Marli Wilkinson);
 - Kate Walker claiming her 2nd Open Women's Beach Flags title in succession along with 2 gold medals in the relay events and her impressive 2nd place in the Open Women's Beach Sprint;
 - our group of talented junior boys Cooper Stanley, Sam Johnson and Patrick Kenny winning 11 medals between them across both age (U17, U19) & open events which included Patrick Kenny winning both the Open and U19 Men's Beach Flags;
 - Julia Phillips with an outstanding win in the Open Women's Beach Sprint along with wins in the Open Mixed Beach Relay & Open Women's Beach Relay and a bronze medal in the Open Women's Beach Flags;
 - Having 4 competitors in the Open Men's Beach Flags final as well as 5 competitors in the Open Men's Beach Sprint final, and
- of note for the entire weekend was the performance of Mitchell Reither in the U17 & U19 men's beach relay events, with his safe baton changes and steely determination he brought it home for both teams to win gold – the elation on his face (and his dad Kristen) was priceless and gave the team such joy.

After an overwhelmingly successful State Championships, a team of eight Anglesea Beachies and support crew headed across to Perth to test themselves against the highest level of competition, one could ask for. Our competitors were decked out with amazing merchandise thanks to our sponsors Cotton On, looking professional and showing off our wonderful club colours. Our team also received extremely generous sponsorship from Morgan's Financials, who assisted us with fantastic accommodation (which is always challenging when the Aussies are in Perth) – thank you so much to Jill Murray in organising this.

In summary, the team enjoyed their most successful Aussies in over 25 years by having 8 finalists – in all age groups, both male & female and in both teams' & individual events. Of recognition must be to our two medal winning performances:

Patrick Kenny – 3rd, U17 Men's Beach Sprint, and

Julia Phillips, Cooper Stanley, Kate Walker, Patrick Kenny – 3rd, Open Mixed Beach Relay.

It must be said that our sprinters led the way over the 3 days of competition:

Julia Phillips – was certainly one of the favourites for the Open Women's Beach Sprint after winning each of the heat, quarter and semi with blistering runs in each. The hotly contested final saw Julia crowned as the 4th fastest beach sprinter in Australia which is an unbelievable feat. This together with her Bronze medal as part of the Open Mixed Beach Relay and along with her teammates Bella Robinson, Kate Walker and Stephanie Larkin finishing an amazing 6th in the Open Women's Beach Relay. Julia's improvement after joining the Anglesea beach team has been amazing for everyone involved and we can't wait to see what she does next year

Kate Walker- whilst we know Kate for her strength in flags, Kate blitzed the soft sand in career best sprinting form which secured her first ever Open sprint semi-final and ranking her in the top 12 in Australia. Like Julia, Kate was also an integral team member of the successful Mixed Beach Relay and Open Women's Beach Relay teams.

Cooper Stanley – as a first year U19 and having concentrated on school swimming for much of the year, Cooper’s performance by making the final of the U19 Men’s Beach Sprint, where he finished 8th, was one of the most outstanding achievements of the season. Cooper made 3 finals at the Australian Championships – 8th U19 Men’s Beach relay, 3rd Open Mixed Relay and 5th U19 Men’s Beach Relay (together with Sam Johnson, Patrick Kenny and Pierre Lee, although the team were unfortunately disqualified) – well done Cooper on an amazing weekend, all that training and dedication certainly paid off.

Patrick Kenny – also made 3 finals over the weekend, both in individual and team events and claimed 2 Bronze medals- a 3rd in a highly contested U17 Men’s Beach Sprint and as a team member in the Open Mixed Beach Relay. Patrick was also a member in the U19 Men’s Beach Relay team who made the final and was all so very close to making the U17 Men’s Beach Flags final but missed out by one spot, being eliminated in the very last run of the semi-final.

Sam Johnson – it was amazing to have Anglesea represented in so many finals at the beach sprint track, and no more so than when we had both Patrick and Sam in the final of the U17 Men’s Beach Sprint. Sam’s hard work paid off by also making 3 finals over the weekend that made him the 8th fastest beach sprinter in Australia and 6th best flagger. Making any beach flag final at the Australian Championships is truly an amazing performance, and so Sam, you should be very proud of your achievements over the season.

I am sure the athletes would agree that they could not have had such a successful weekend of competition without the amazing support from Jill Murray, Jill Kenny, Russell Johnson and Robert Kenny. These dedicated group of parents ensured that all team

members (and coaches!) were able to compete at their pre-eminent level: transporting everyone to & from the beach each day, organising and providing dinner each night at our fantastic accommodation, making sure we had all the right gear on the beach (those chairs were a god send!), etc, etc. Not only do the beach competitors thank you but the entire membership of the Anglesea Surf Life Saving Club congratulates you for your devotion to what we all love – Surf Life Saving.

Congratulations must go to Sam Johnson who won the Bruce Thompson Award this season as well as the Margaret Worrell Award – a tremendous effort by Sam and reward for your consistency over the season.

Overall, this season was a massive success with too many amazing moments to count. One thing that can be said for certain, is that the improvement athletes have shown was incredible with so many career firsts for athletes both young and senior. None of this would have been achieved without the amazing guidance of Peter Van Miltenburg and John Baldock – we certainly missed you John at the Aussies this year. The team is so fortunate to be under the guidance of these talented coaches. We will forever be in debt to them for all their time and effort that they dedicate to us. Without them the Anglesea Beach team would not have had the success this year, that they did. In fact, without them there wouldn’t be a beach team at all. I’d also again like to thank our sponsors Morgans Financials and Cotton On for helping our athletes achieve the success they did. Well done to everyone this season, you’ve made the Club extremely proud.

Adam Martin
Beach Team Captain

SURFBOAT

REPORT

This past season saw our Boat Section deliver another solid performance. Five crews represented the Club at carnivals, that stretched as far as Sydney, on five separate occasions and of course the ridiculous trip to Perth. Then we had eight local State based carnivals, including the State Championships at Ocean Grove.

Our season began with the Open Women "Lightning" once again taking on the Ocean Thunder series. This event attracts the best crews from around the country and is regarded as a must do for any crew who thinks they have a chance to win, at the pointy end of the season. On four separate occasions, the crew travelled to Dee Why which meant return flights and the round trip towing the boat, all self-funded, by each individual crew member. Unfortunately, the crew copped a massive hit in Round 1 which resulted in all four rowers sustaining injuries which ultimately saw the crew withdraw from competition, and end their season, early February.

Rob Tennant put together a group of locals who contested the Masters and Reserve Men. Team "Sashimi" trained and raced well all season, which saw them take Gold in the 160+ Masters and finalists in Reserve division at States. Will be great to see these guys back next season.

This season was our Under 23 Men's transition year from both Under 19 and finishing year 12, so for the "Storm", it was a case of training and racing when they could. The crew are working on stepping up the training levels and settling into the next two years, working hard in the grade.

When conversations are about which crews have stood the test of time, one crew always comes to mind. Yes, the "Pirates". On a similar transient season to the "Storm", the boys who have been the State's best Under age crew for the past seven years have each transitioned from Uni to careers that has made training as a crew difficult. A close finish saw the boys take the Bronze Medal in Open Men at the Vic's against two of the best crews in the country. Special mention of William Popovic who stepped up and rowed in both the Storm and Pirates.

Then we were graced by the presence of our newest crew, The Mighty "Cannon's", our Under 19 young guns, who in their first season have done so much, and have been so good, at everything they've done. From training their butts off, to beginning their learnings of the surf, to doing heaps of Patrol hours, to working all day on the Beach Barbie for the Juniors Carnival and more. The boys came home from the States with their first medal, a Bronze. To see how happy they were has me wondering what will happen when they win the right colour medal.

Once again, we must thank our fantastic supporter base who, without their help, we would not have any possible way of running such a quality Boat Section. Thank you to the following:

- Adam Morgan from Glass Metal Industries. We thank Adam for his generosity in again supporting our crew with covering the \$5,000 entry fee for Ocean Thunder and a \$10,000 donation towards our new boat.
- David Eades for his donation which paid for a much needed 2nd hand boat and trailer we bought from Noosa Heads.
- Rob Tennant and Abacus Visual who covered the costs of sign writing our boats and oars.
- Peter King from ASP Global who managed and covered the cost of getting our 40ft Container from Anglesea to Scarborough and back.
- The Anglesea SLSC Office Staff and in particular Jennie for all the behind the scenes work she does with ensuring our entries are put in on time, every time.

Next season will see us racing in a new boat with some new rowers and a renewed intention to build the Anglesea SLSC name and spread the word far and wide that we are not just a great Boat Club, but we are a Great Club. Our Crews will play a big part of the Clubs future and along with all the Club's Rowers and Sweeps, I wish to again thank the Club Board, Supporters, and Sponsors, for we would be nothing without your support.

Scott Tannahill
Boat Captain

RESCUE & RESUSCITATION

REPORT

After the highs of three Rescue & Resuscitation SLSA Titles in 2022, season 2023 was a little more subdued with teams taking a low-key approach and taking some time out for a 2024 Aussie come back.

This season R&R Team Members included.

- Melissa Bird
- Callum Brennan
- Warren Clarke
- Mikaela Dale
- Alexandra Madeley
- Emma Moore
- Ryan Nolan
- Bronwyn Marsh
- Lucas Waters
- Marli Wilkinson

Coach – Christine Cardwell

Officials – Warren Clarke, Alexandra Madeley, Mikaela Dale, Christine Cardwell, Emma Moore

Support Crew – Karen & Sai Dale

There was a significant focus this season of supporting Victorian clubs with R&R at the LSV Coaching Development Workshops facilitated by Christine.

The following Anglesea members demonstrated drill, assisted with varying coaching approaches, and shared experiences during these workshops; Mikaela Dale, Alex Madeley, Melissa Bird & Warren Clarke. Their input and support is invaluable.

Due to work and personal commitments, as well as injuries, Anglesea only had teams competing at Geoff Waters OAM Memorial R&R Carnival at Lorne & Victorian titles at Ocean Grove this season.

The R&R teams welcomed the energy and support of two former R&R'ers in Bronwyn Marsh & Marli Wilkinson. Having Bronwyn and Marli on board we were able to ensure we could contest the Open Women's category and therefore, able to enter our full complement of teams.

Marli took her U/15 R&R Gold medal experience into swimming in the surf belt with flying colours, with Bronwyn resuming her old position of No 3 in true style, whilst getting lots of support and cheering on from husband Ducky and kids.

Although a small group this season, we continued to enjoy our friendships, the team aspect, having fun and representing the green & white in top fashion.

2022/23 Results:

Geoff Waters OAM Memorial R&R Carnival – Lorne, Sunday February 13th, 2023

- 1st Open Mixed 5 person
- 1st Open 6 person.

Victorian Championships – Ocean Grove, Saturday 25th February 2023

- 1st Open Women's 5 person
- 1st Open Mixed 5 person
- 1st Open 6 person.

Disappointingly, even though no teams competed at Aussies this year, Christine Cardwell and Warren Clarke both officiated at Youth & Senior Competitions in Scarborough WA.

In true Anglesea spirit Christine & Warren also assisted Scarborough SLSC R&R teams in their preparation for their first Aussies in ten years – R&R has made a resurgence at Scarborough SLSC.

At the Official's dinner Warren Clarke was presented with his SLSA forty-year service award for officiating – a wonderful achievement to a loyal and dedicated member who gives so much support not only to R&R but to many facets of the Club and behind the scenes.

In a final note, Nipper parents if you know of two mates who would like to try 2 person R&R (pathway event to 5 person) please contact Christine or Warren.

If there are any youth and senior members who would like to be part of an iconic lifesaving event in a team environment, we would like to welcome you – please message the office and they will put you in contact.

An exceptional result for the R&R section is without doubt the Open 6-person team winning the 2022 Victorian Sports Awards, AED Team of the Year. This is indeed a great achievement with significant numbers of nominations across sporting codes in Victoria. Congratulations to Alex, Ryan, Rhianna, Lucas, Mel and Callum for this incredible achievement and to Christine for her nomination in the Gallagher Community Coach of the Year award.

Christine Cardwell Anglesea R&R Coach

2022 BURSON ROCK2RAMP

OCEAN SWIM REPORT

The 2022 Burson Rock2Ramp Ocean Swim was conducted on Wednesday 28 December for the 27th time at Point Roadknight Beach, Anglesea. The event attracted 863, swimming in calm conditions for much of the event.

Clancy Luscombe won the men's 2.5km event at the start of the day with a time of 00:29:50 by one second to the 2021 2.5km winner Matt Gilling (00:29:51) with Harry Manolopoulos (00:29:52) in third place. In the women's 2.5km event, Clare Milligan backed up from her 2021 win to take out the event in 2022 in 00:34:45. Sofia Piaia (00:35:45) was second and three-time Olympian Rowie Webster (00:35:41) finished in third.

Harvey Luscombe was the men's winner of the 600m event with a time of 00:08:43 and Zoe McKenna was the female winner with a time of 00:09:14.

The 1.2km event, Thomas Hay was the open male winner with a time of 00:14:30, with second place tied between Clancy Luscombe (00:14:45) and the 2021 winner Matt Gilling (00:14:45). Mia Holah was the open female winner with a time of 00:16:30. Like the male category, second was also tied with Madison Cooper (00:16:34) and Anglesea SLSC's own Naantali Marshall (00:16:34).

Race Director, Tom Cullen said "Swimmers enjoyed the calm sea conditions which were experienced by all. Whether this was your first-time swimming in an ocean swim, or you were a seasoned swimmer, everyone had a great day."

The Burson Rock2Ramp Ocean Swim would like to thank everyone that attended and supported the event with much needed funds going to the Anglesea Surf Life Saving Club, to ensure we can continue to provide essential rescue services to the Anglesea community and visitors.

For the full results please visit www.rock2ramp.com

We look forward to seeing you again at the 2023 Burson Rock2Ramp Ocean Swim on Thursday 28, December 2023.

Tom Cullen
Race Director

MEMBER DEVELOPMENT

REPORT

It has been another busy year on the Member Development front, with our trainers helping the next generation of lifesavers join us on the beach. I'd like to extend a big thank you to all involved in the delivery of training and assessment at Anglesea. It was great to see so many happy faces at our courses.

Some highlights for the season include:

- Another action packed week at Bronze Camp. Thanks to Tilly Campbell and Alice Bills for all their hard work in the lead up, and over the course of the camp, and to all the trainers who assisted over the week with both training and assessment.
- Welcoming our newest patrollers onto the beach after completing their SRC, run by Shem Fitzgerald

- All the thrills (and spills) from our IRB crew and driver courses, giving our patrolling members the opportunity to upskill to further improve safety on our beach.

All these opportunities would not have been possible without the dedication of our volunteer trainers and assessors, and I am incredibly grateful for all the weekends and beautiful summer days that they give up to help train the next generation of lifesavers.

Lachlan Eaton

Director of member Development

DOORKNOCK REPORT

We had a great turn out from members, with most areas collected on the night. Our Nipper families continue to be the backbone of this event, making up 90% of the members who volunteered for this event. Holding this event in December again proved successful in terms of households being full and our Nipper families around to help.

We continued to focus on cash free donation options as both a COVID-safe and convenient donation options, through the Go Fund Me platform, which resulted in a greater number of sizeable

donations. This also allowed us to continue to raise funds via QR code donation points around the Club, across the summer. Thanks to all those families who helped on the night. We continue to try and encourage our older members to get involved in this important event. The total raised was \$39,267, a record amount for this event.

Fiona Fitzgerald

Doorknock Coordinator

POLAR BEARS

REPORT

GROWL GROWL GROWL

Post Covid, Bears have enjoyed a successful resumption of activities, with attendances in the sixties and sometimes up to eighties.

The Bears opening night function in May saw approximately 120 attendees, probably a record.

This a far cry from back in 2008 (when Bears restarted) some Sundays we would struggle for a quorum.

If not a Bear, then please register in Fundraising/Events Section on the website, and come along, usually the first Sunday of the month, and enjoy a winter swim and BBQ afterwards.

Chief Bear Mick, as usual totally unauthorised and inaccurate.

Michael McConnell

ASLSC Polar Bears

MARKETING

REPORT

We have seen another busy year in relation to marketing activity around the Club. A newly formed marketing group consisting of Emily Murray, Mietta Walsh, Nici Henningsen and Rob Tennant convened following the AGM last year to align on the goals and direction for the Club over the coming season, and years to come. Thank you to the team listed above for your support and guidance over the past year.

As a team, the agreed areas of focus for the upcoming season included:

- A desire to create an inclusive events calendar that supported all areas of the Club.
- Continue to drive revenue through merchandise sales.
- Renewed focus on sponsorship and donations from an expanded group of businesses and individuals
- Keep members engaged and informed through regular communications.

I'd like to call out some significant wins for the Club in relation to marketing over the past season:

- Our local community engagement continues to go from strength to strength. We are seeing strong support from local businesses through sponsorship and both local publications, the Surf Coast Times and Geelong Advertiser, are regularly featuring the Club's achievements, both on and off the beach.
- The Club's newsletter, A Line in the Sand, continues to be the central point for information and knowledge sharing across members. We have seen strong readership, with a 65% open rate across all emails sent. We are looking at ways to ensure this continues to be an engaging source of content for everyone into the next season.

- Our merchandise shop would not have been possible without the tireless work of our team of volunteers this year. The ladies did an incredible job, not only throughout the season but undertaking a stocktake at the start and end of financial year. Thank you so much team!
- Revenue from the store came in at \$51k at the end of the peak season, which is 9% below last year's revenue, however this is still a strong result.
- The Club's social media following continues to grow, with a 12% increase in followers across Instagram and 19% increase on Facebook, over the last 12 months. This will continue to be a strong connector for club members in the peak and off seasons to share information, celebrate our wins and promote our partnerships.
- Our schedule of events was very well received, with highlights including the reinstatement of the Ladies Lunch, Nipper Family Night, 70th Anniversary celebrations, Locals lunch, Awards night and many, many more.

With the marketing portfolio spanning many facets from events to sponsorship, communications and social media, to merchandise, there is still much to achieve and plenty for us to work on as a team. I am excited and energised to continue to support the Club to find new revenue streams and help create an engaged group of members year-round. Bring on next season!

Emily Watsford

Director of Marketing

SUPPORTERS

GROUP

As in previous seasons, the trustees of the Hilton White Estate made another significant donation to the Club through the Supporters Group. This has enabled the purchase of additional equipment used by the Nipper and Starfish groups and provides continuing financial support for the Starfish program for future seasons.

Another 'Weber Barbeque' fundraising raffle was successfully conducted this year by Geoff and Jenny Inman and we thank them for their continuing generosity and support. This initiative has contributed in the order of \$10,000 over the past four seasons.

In this past season, the Supporters Group were pleased to provide support for the following:

- Purchase of new Nipper boards, Dolphin competition boards, new Charger competition ski and Meek paddle for the Dolphin program.
- Purchase of numbered competition caps for the 70th Anniversary celebrations.
- Membership fee subsidies for the Local Nipper program.
- Purchase of trophy for Rock 2 Ramp swim.

- Provision of food vouchers to Saturday patrol members.
- Underwriting of the Nipper Family Fun Night, which successfully resumed this season, following cancellations in previous years due to Covid 19 impact.
- Liaised with the Starfish Nippers coordination committee to assist with the creation of a program of activities for season 2023 – 2024 and established a budget for that program.
- Provision of funding to support members selected to undertake personal development and training courses in seasons 2022 – 2023 and 2023 – 2024.
- Running of a break-up BBQ for the Bronze Camp participants.

We thank the President and Directors for their support, and we look forward to the opportunity to continue our contribution to the success of our great Club.

Geoffrey Elliott

Chair – Supporters Group Advisory Committee

SILVER SALTIES

The Silver Salties are a great group who enjoy a fun frolic in the ocean while practicing bodysurfing. Our common interest is a love of the ocean, and our common goal is to bodysurf safely in local conditions.

Each January we run a three day 'back to basics' course followed by weekly meets through the summer season at Anglesea Main Beach and Pt Roadknight. This year 25 people joined this course.

The fundamentals of water and beach safety are imbedded in the body surfing program, as many join our group, with little or no ocean experience.

It gives me great joy to see how successful the Salties program has become in strengthening connections in the Anglesea local community.

The Salties are grateful for the support of water safety volunteers, many of them young enough to be their grandchildren!

Salties is fun but would not exist without the enthusiasm of our members. The many hours that Lisa and Simon Howden put in, to Terrey and the support of Jennie Mauderer and Raylene Fordham, Club Manager.

Winter is upon us but be assured you will still see us catching those magnificent winter waves.

Till spring comes around.

Hetti Ramp

ANGLESEA SLSC 70TH

ANNIVERSARY

Following a series of postponements due to the COVID 19 pandemic, the Club was finally able to host its 70th Anniversary celebration during early November 2022.

The three day event attracted over 200 former, present members and families to what turned out to be the best weekend weather we had experienced for many months. A great deal of preparation was involved in hosting what proved to be a very successful event over the three-day program, involving a display of photographs and memorabilia dating back to the Club's creation in 1952 and a number of hospitality events.

During the weekend a film was shown depicting ASLSC during the 1950's-60's. This film had been successfully created by Hugh Murray from several donated films that had been copied by the Club during the year. We thank Hugh for his time and work.

Activities commenced with an informal gathering in Jimpy's Bar on Friday evening where many former competitors and members were able to renew acquaintances, share their stories, and revisit experiences about adventures in the surf – with waves which became bigger as the night went on.

Saturday was the main event commencing with a midday swim by participants including former members, with quite a number now living in the northern states, suffering temporary shock from Anglesea's 'bracing' November water temperature. Judging by this performance the Australian Surf Race title is unlikely to be challenged any time soon!

A BBQ was provided in the early afternoon followed by a presentation of numbered caps to former State and Australian team members.

Saturday evening was the main social event which was attended by over 150 people. A brief presentation by former President Dave Kennedy about the early history of the Club, followed by current President David Marsh, who provided an outline of the Club's growth over more than 70 years. Finger food was provided, while current and former members exchanged tall and true tales (although many of the former than the latter) and caught up for drinks. Fortunately, Prue Weber who had taken on the task of preparing the displays, had thought ahead by arranging name and era identification cards. This was particularly useful in dealing with the challenge of linking former members with their photographs – which often bore little resemblance!

The weekend finished with another casual BBQ. This was a very successful and casual event, completing what proved to be a wonderful weekend of Club celebration.

Thanks were due to a working group set up to manage the event, Polar Bear's members for manning the food and drinks program on Saturday and Sunday, Prue Weber for the excellent photographic and memorabilia display, and Club Manager, Raylene Fordham for coordinating the event and hospitality service. Special thanks to Andrew Mauderer, Graeme Weber and the other photographers for taking photographs during the weekend, thus recording the event and finally to the important people, who greeted and manned the door and provided name tags for all attendees

JOHN TURNER OAM

HONOURS

John R Turner was awarded in the recent King's Birthday Honors an OAM General Division for his Service to Life Saving.

John began his Lifesaving involvement firstly with Williamstown SLSC in 1953 gaining a RLSSA Bronze Medallion, then he joined Pt Lonsdale SLSC and gained a SLSA Bronze Medallion in 1954. John became very active while a Member of Pt Lonsdale SLSC holding several Committee positions and participated in the Senior Boat Crew which won a Gold Medal at the SLSA Titles 1965, he was made a Life Member of Pt Lonsdale SLSC in 1966.

John was selected by SLSV in several Life Saving teams and in 1965 was selected in the SLSA Team to tour USA and in 1967 was selected in the first SLSV Wieland Shield Team.

John was granted Active Reserve Membership when he and his family joined Anglesea Surf Life Saving Club in 1976, and he became very active in supporting youth development and set up the Mazda Development Squad in 1994. He was ASLSC Director of Competition 1997-2000; granted Honorary Membership in 2008 & in 2013 was made a Life Member and was a foundation Member of the Anglesea Supporters Group 2014, Secretary 2017-22.

John has made a wonderful contribution to all aspects of Life Saving and we congratulate him on his well-deserved Award.

VALES

**Elizabeth (Liz) Margot Randall formerly Foster née Fullwood
16/4/1934 - 15/5/2023**

Anglesea SLSC was sorry to hear of Liz's passing on May 15, 2023. Liz was a longstanding supporting member of the Club as a club Patron 2013-2017 and Mother & Grandmother of Life Saving Bronze holders. We will miss her interest and support and hope her family's connection will continue.

John Talbot Ashenhurst

India 7/1/1939; Died Coffs Harbour 20/10/2022

Joined ASLSC 27/11/1963; Bronze Medallion 8/12/1963 - V1801

'Ash' created our iconic ASLSC crest. Any member or visitor will pass this crest many times in our club rooms or on stationery and gear.

'Ash' was a talented world famous creative artist and photographer who shot the photo at the 1964 Anglesea Carnival, a commission from General Motors Holden to launch the 'EH' Holden station wagon, which has now featured on calendars world wide.

John rowed Senior 'B' Surfboat in:

1963/64 with Howard Park, Ajax Sutherland, John Ashenhurst, Robert Proudfoot with sweeps Mal Seccull, John Sneesby

1965/66 with John Baldock, Tony Kewish, John Ashenhurst, Ajax Sutherland with sweep Bob Harding.

On 15/12/1966 John transferred to Pt Lonsdale SLSC where he was a member of their boat crews.

Work took 'Ash' to Sydney where he continued a long and successful career with several Northern Beaches' clubs as a sweep.

ASLSC boaties always caught up with 'Ash' at the Aussies in subsequent years. He was always interested in his old club's competition, particularly when 'Fletch' as sweep won the men's U21 in 1997- crew Guy Anderson James Gowans, Christopher Gowans and Simon Allison

Alexander 'Ajax' Sutherland

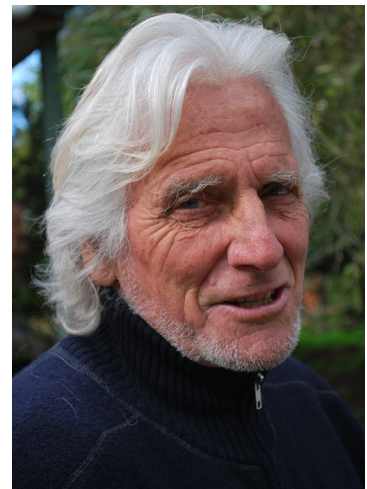

Photo John Ashenhurst 1964

Laurie Foley Anglesea SLSC acknowledges the passing of Laurie Foley 12/3/1946-11/5/2023, long time Associate and supportive Club Member Father of Chris, Jason and Jacinta and Grand Father of Active Lifesavers

Notes to the Financial Statements

ANGLESEA SURF LIFE SAVING CLUB INC For the year ended 30 April 2023

1. Statement of Significant Accounting Policies

In the trustee's opinion, the Incorporated Association is not a reporting entity since there are unlikely to exist uses of the financial report who are not able to command the preparation of reports tailored so as to satisfy specifically all of their information needs. This special purpose financial report has been prepared to meet the reporting requirements of the *Australian Charities and Not-for-profits Commission Act 2012*.

The financial statements have been prepared in accordance with the recognition and measurement requirements of the Australian Accounting Standards and Accounting Interpretations, and the disclosure requirements of *AASB 101 Presentation of Financial Statements*, *AASB 107 Statement of Cash Flows*, *AASB 108 Accounting Policies, Changes in Accounting Estimates and Errors* and *AASB1054 Australian Additional Disclosures*.

The accounting policies that have been adopted in the preparation of the statements are as follows:

Income Tax

No provision for income tax has been raised as the entity is exempt from income tax under Div 50 of the *Income Tax Assessment Act 1997*.

Inventories

Inventories are carried at the lower of cost or net realisable value.

Inventories acquired at no cost or for nominal consideration are measured at the current replacement cost as at the date of acquisition.

Property, Plant and Equipment

Property, plant and equipment is initially recorded at the cost of acquisition less, if applicable, any accumulated depreciation and impairment losses. The plant and equipment is reviewed annually by directors to ensure that the carrying amount is not in excess of the recoverable amount from these assets. The recoverable amount is assessed on the basis of the expected net cash flows that will be received from the utilisation of the assets and the subsequent disposal. The expected net cash flows have been discounted to their present values in estimating recoverable amounts.

Trade and Other Receivables

Trade receivables and other receivables, including distributions receivable, are recognised at the nominal transaction value without taking into account the time value of money. If required a provision for doubtful debt has been created.

Trade and Other Payables

Trade and other payables represent the liabilities for goods and services received by the association that remain unpaid at 30 April 2023. Trade payables are recognised at their transaction price. They are subject to normal credit terms and do not bear interest.

Cash and Cash Equivalents

Cash and cash equivalents include cash on hand, deposits held on call with banks, other short-term highly liquid investments with original maturities of three months or less, and bank overdrafts.

Revenue Recognition

Revenue from the sale of goods is recognised upon the delivery of goods to customers.

Revenue from the rendering of services is recognised upon the delivery of the services to customers.

Revenue from commissions is recognised upon delivery of services to customers.
Revenue from interest is recognised using the effective interest rate method.
Revenue from dividends is recognised when the entity has a right to receive the dividend.

All revenue is stated net of the amount of goods and services tax (GST).

Goods and Services Tax

Transactions are recognised net of GST, except where the amount of GST incurred is not recoverable from the Australian Taxation Office (ATO).

Receivables and payables are stated inclusive of the amount of GST receivable or payable. The net amount of GST recoverable from, or payable to, the ATO is included with other receivables or payables in the balance sheet.

Employee Provisions

Short-term employee benefits

Provision is made for the association's obligation for employee benefits arising from services rendered by employees to balance date. Current employee provisions are those which employees are currently entitled to and are measured at the amounts expected to be paid when the liability is settled.

Non-current employee provisions are measured at the present value of the expected future payments to be made to employees. The expected future payments incorporate anticipated future wage and salary levels, experience or employee departures and periods of service, and are discounted at rates determined by reference to market yields at the end of the reporting period on high quality corporate bonds that have maturity dates that approximate the timing of the estimated future cash outflows.

The association's obligations for current employee benefits such as wages, salaries and sick leave are recognised as part of accounts payable and other payables in the statement of financial position.

Contributions are made by the entity to an employee superannuation fund and are charged as expenses when incurred.

Grants

Grant revenue is recognised in the income statement when the entity receives the grant, when it is probable that the entity will receive the economic benefits of the grant and the amount can be reliably measured.

If the grant has conditions attached which must be satisfied before the entity is eligible to receive the grant, the recognition of the revenue will be deferred until those conditions are satisfied.

Where the entity incurs an obligation to deliver economic value back to the grant contributor, the transaction is considered a reciprocal transaction and the revenue is recognised as a liability in the balance sheet until the required service has been completed, otherwise the income is recognised on receipt.

Anglesea Surf Life Saving Club Inc receives non-reciprocal contributions of assets from the government and other parties for a nominal or zero value. These assets are recognised at their fair value on the date of acquisition in the balance sheet, with an equivalent amount of income recognised in the income statement.

Donations and bequests are recognised as revenue when received.

Government Grants

Government grants received are recognised in the income statement when the entity receives the grant, when it is probable that the entity will receive the economic benefits of the grant and the amount can be reliably measured.

2. Resilience Fund

During the current financial year the club launched the 'Resilience Fund' with the ambition of raising a total of \$1,000,000 over 10 years.

The fund has been established to ensure the Club has the appropriate resources, infrastructure and equipment to keep our beaches safe. Additionally, the fund will support the Club to continue be a great community leader and to provide safe avenues for our membership to learn beach and life skills, compete and/or participate in the running of our Club.

Financial Declaration of the Committee

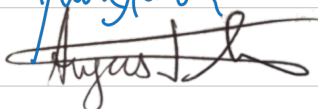

ANGLESEA SURF LIFE SAVING CLUB INC

For the year ended 30 April 2023

The Committee declared that in the Committee's opinion:

- There are reasonable grounds to believe that the registered entity is able to pay all its debts, as and when they become due and payable; and
- The financial statements and notes satisfy the requirements of the Australian Charities and Not-for-profits Commission Act 2012.

Signed in accordance with subsection 60.15(2) of the Australian Charities and Not-for-profit Commission Regulation 2013.

David Marsh (President)	
Angus Staines (Director - Finance)	

Sign date: July 7th, 2023

Independent Audit Report to the Members of Anglesea Surf Life Saving Club Inc.

Report on the Audit of the Financial Report

Qualified Opinion

I have audited the financial report of Anglesea Surf Life Saving Club Inc. ('the Association') which comprises the Statement of Financial Position as at 30th April 2023, Trading Statement, Statement of Profit and Loss, Statement of Cash Flows and Statement of Changes in Equity for the year ended 30th April 2023, Notes to the Financial Statements, including a summary of significant accounting policies, and the Financial Declaration of the Committee.

In my opinion, except for the matters described in the Basis for Qualified Opinion section of this report, the accompanying financial report presents fairly, in all material aspects, the financial position of the Association as at 30th April 2023, and its financial performance for the year then ended in accordance with the accounting policies described in Note 1 to the financial statements and the requirements of the *Associations Incorporation Reform Act 2012 (Victoria)*.

Basis for Qualified Opinion

I did not attend the year-end stock take and was unable to perform alternative procedures to gain reasonable assurance over the balance of inventory held at 30th April 2023.

I conducted my audit in accordance with Australian Auditing Standards. My responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Report* section of my report. I am independent of the Association in accordance with the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants* (the Code) that are relevant to my audit of the financial report in Australia. I have also fulfilled my other ethical responsibilities in accordance with the Code.

I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my opinion.

Emphasis of Matter - Basis of Accounting

I draw attention to Note 1 to the financial report, which describes the basis of accounting. The financial report has been prepared for the purpose of fulfilling the Committee Member's financial reporting

responsibilities under the *Associations Incorporation Reform Act 2012 (Victoria)*. As a result, the financial report may not be suitable for another purpose. My opinion is not modified in respect of this matter.

Responsibilities of the Members of the Committee

The committee is responsible for the preparation and fair presentation of the financial report in accordance with the financial reporting requirements of the *Associations Incorporation Reform Act 2012 (Victoria)* and for such internal control as the committee determines is necessary to enable the preparation and fair presentation of a financial report that is free from material misstatement, whether due to fraud or error.

In preparing the financial report, the committee is responsible for assessing the association's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the committee either intend to liquidate the Association or to cease operations, or have no realistic alternative but to do so.

Auditor's Responsibilities for the Audit of the Financial Report

My objective is to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes my opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the financial report.

As part of an audit in accordance with the Australian Auditing Standards, I exercise professional judgement and maintain professional skepticism throughout the audit. I also:

- Identify and assess the risks of material misstatement of the financial report, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for my opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Reporting Unit's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Members of the Committee.
- Conclude on the appropriateness of the Committee Members' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Association's ability to continue as a going concern. If I conclude that a material uncertainty exists, I am required to draw

attention in my auditor's report to the related disclosures in the financial report or, if such disclosures are inadequate, to modify my opinion. My conclusions are based on the audit evidence obtained up to the date of my auditor's report. However, future events or conditions may cause the Association to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the Financial Report, including the disclosures, and whether the financial report represents the underlying transactions and event in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Association to express an opinion on the financial report. I am responsible for the direction, supervision and performance of the Association audit. I remain solely responsible for my audit opinion.

I communicate with the Members of the Committee regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that I identify during my audit.

Notes to the Financial Statements

Anglesea Surf Life Saving Club Foundation Pty Ltd For the year ended 30 April 2023

1. Statement of Significant Accounting Policies

Basis of Preparation

In the trustee's opinion, the Foundation is not a reporting entity since there are unlikely to exist uses of the financial report who are not able to command the preparation of reports tailored so as to satisfy specifically all of their information needs. This special purpose financial report has been prepared to meet the reporting requirements of the *Australian Charities and Not-for-profits Commission Act 2012*.

The financial statements have been prepared in accordance with the recognition and measurement requirements of the Australian Accounting Standards and Accounting Interpretations, and the disclosure requirements of *AASB 101 Presentation of Financial Statements*, *AASB 107 Statement of Cash Flows*, *AASB 108 Accounting Policies, Changes in Accounting Estimates and Errors* and *AASB1054 Australian Additional Disclosures*

The accounting policies that have been adopted in the preparation of the statements are as follows:

Material Uncertainty Related to Going Concern

The directors have considered going concern and believe the company can continue as a going concern. However, attention should be drawn to the directors consideration of ceasing operations in the next 12 months. This consideration is not as a result of the foundation being unable to realise its assets, or discharge its liabilities, in the normal course of business. The consideration is given simply as a means of simplifying the financial affairs of the Anglesea Surf Life Saving Club.

Discussions around ceasing operations are ongoing and a decision will be made in the near future.

Trade and Other Receivables

Trade receivables and other receivables, including distributions receivable, are recognised at the nominal transaction value without taking into account the time value of money. If required a provision for doubtful debt has been created.

Financial Assets

Investments held are originally recognised at cost, which includes transaction costs. They are subsequently measured at fair value which is equivalent to their market bid price at the end of the reporting period. Movements in fair value are recognised through an equity reserve.

Trade and Other Payables

Trade and other payables represent the liabilities for goods and services received by the company that remain unpaid at 30 April 2023. Trade payables are recognised at their transaction price. They are subject to normal credit terms and do not bear interest.

Provisions

Provisions are recognised when the entity has a legal or constructive obligation resulting from past events, for which it is probable that there will be an outflow of economic benefits and that outflow can be reliably measured. Provisions are measured using the best estimate available of the amounts required to settle the obligation at the end of the reporting period.

Cash and Cash Equivalents

Cash and cash equivalents include cash on hand, deposits held on call with banks, other short-term highly liquid investments with original maturities of three months or less, and bank overdrafts.

Revenue Recognition

Revenue is recognised when the amount of the revenue can be measured reliably, it is probable that economic benefits associated with the transaction will flow to the entity and specific criteria relating to the type of revenue as noted below, has been satisfied.

Revenue from interest is recognised using the effective interest rate method.

Revenue from dividends is recognised when the entity has a right to receive the dividend.

Directors Declaration

Anglesea Surf Life Saving Club Foundation Pty Ltd For the year ended 30 April 2023

The Directors declare that the trust is not a reporting entity and that this special purpose financial report should be prepared in accordance with the accounting policies outlined in Note 1 to the financial statements.

The Directors declare that:

1. The financial statements and notes, as set out on pages 1 to 8 present fairly the trust's financial position as at 30 April 2023 and its performance for the year ended on that date in accordance with Australian Accounting Standards (including Australian Accounting Interpretations); and
2. In the trustees' opinion there are reasonable grounds to believe that the trust will be able to pay its debts as and when they become due and payable.

This declaration is made in accordance with a resolution of the Directors.

Director: Mr David Marsh

Director: Mr Angus Staines

Independent Audit Report to the Directors of Anglesea Surf Life Saving Club Foundation Pty Ltd as trustee for Anglesea Surf Life Saving Club Foundation

Report on the Audit of the Financial Report

Unmodified Opinion

I have audited the financial report of Anglesea Surf Life Saving Club Foundation, which comprises the statement of financial position as at 30th April 2023, Statement of Profit and loss and other comprehensive income, statement of cash flows, movements in equity for the year ended on that date, notes comprising a summary of significant accounting policies and other explanatory information, and the directors declaration.

In my opinion, the accompanying financial report has been prepared in accordance with Division 60 of the *Australian Charities and Not-for-Profits Commission Act 2012* including:

- (a) Giving a true and fair view of the registered entity's financial position as at 30th April 2023 and of its financial performance for the year then ended; and
- (b) Complying with Australian Accounting Standards to the extent described in Note 1 and Division 60 of the *Australian Charities and Not-for-Profits Commission Regulation 2013*.

Basis for Opinion

I conducted my audit in accordance with Australian Auditing Standards. My responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Report* section of my report. I am independent of the Association in accordance with the ethical requirements of the Accounting Professional and Ethical Standards Board's *APES 110 Code of Ethics for Professional Accountants* (the Code) that are relevant to my audit of the financial report in Australia. I have also fulfilled my other ethical responsibilities in accordance with the Code.

I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my opinion.

Material Uncertainty Related to Going Concern

I draw attention to Note 1 in the financial report, which indicates that the ongoing discussions about foundation to be wound up. As stated in Note 1, these events, or conditions, along with other matters as set forth in Note 1, indicate that a material uncertainty exists that may cast significant doubt on the Foundation to continue as a going concern. My opinion is not modified in respect of this matter.

Emphasis of Matter - Basis of Accounting

I draw attention to Note 1 to the financial report, which describes the basis of accounting. The financial report has been prepared for the purpose of fulfilling the Associations financial reporting responsibilities under the ACNC Act. As a result, the financial report may not be suitable for another purpose. My opinion is not modified in respect of this matter.

Responsibilities of the Responsible Entities for the Financial Report

The responsible entities of the Association are responsible for the preparation of the financial report that gives a true and fair view and have determined that the basis of preparation described in Note 1 to the financial report is appropriate to meet the requirements of the ACNC Act and the needs of the Association. The responsible entities' responsibility also includes such internal control as the responsible entities determine is necessary to enable the preparation of a financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

In preparing the financial report, the responsible entities are responsible for assessing the registered entity's ability to continue as a going concern, disclosing, as applicable, matters relating to going concern and using the going concern basis of accounting unless the responsible entities either intend to liquidate the registered entity or to cease operations, or have no realistic alternative but to do so.

The responsible entities are responsible for overseeing the registered entity's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Report

My objective is to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes my opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the financial report.

As part of an audit in accordance with the Australian Auditing Standards, I exercise professional judgement and maintain professional skepticism throughout the audit. I also:

- Identify and assess the risks of material misstatement of the financial report, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for my opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Reporting Unit's internal control.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the responsible entities.
- Conclude on the appropriateness of the responsible entities use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Association's ability to continue as a going concern. If I conclude that a material uncertainty exists, I am required to draw attention in my auditor's report to the related disclosures in the financial report or, if such disclosures are inadequate, to modify my opinion. My conclusions are based on the audit evidence obtained up to the date of my auditor's report. However, future events or conditions may cause the Association to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial report, including the disclosures, and whether the financial report represents the underlying transactions and event in a manner that achieves fair presentation.

I communicate with the responsible entities regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that I identify during my audit.

I declare that I am an approved auditor, Fellow of CPA Australia and a Fellow of Chartered Accountants Australia and New Zealand and hold a current Public Practice Certificate.
